

Working Student - Offshore Grid - Germany

Location: Germany

Type: Part Time / Flexible

You want to fight the climate change but ran out of glue and mashed potatoes? – Have a look at this job offer and learn about our ambitions to decarbonize the world!

KONGSTEIN is a consultancy in Offshore Wind, Green Hydrogen & Maritime, with offices in Bergen (Norway), Oslo (Norway), Amsterdam (Netherlands), Hamburg (Germany) and Sydney (Australia). Our dedication to accelerating the green shift is rooted in KONGSTEIN's advisory support to major projects in the offshore renewables and the maritime industries.

Our Offshore Grid Team focuses passionately on major projects covering transmission of green electrical power between offshore production sites and onshore grids, providing project management support and technical advisory for the full value chain from concept design to transport and installation (T&I) of offshore assets such as power cables and offshore substations.

As part of the Offshore Grid Team, you will

- Participate in market and industry research
- Contribute in developing our knowledge base and management
- Support project managers and engineers on project assignments
- Be integrated in an international team of passionate professionals

Your background / Qualifications:

- Passionate about renewable energies
- Self-propelled; highly motivated; Team player
- Study at a higher education level

At KONGSTEIN, we are committed to creating a diverse and inclusive work environment that values and respects all individuals. We believe that a diverse workforce enables us to better serve our clients and customers and drives innovation and excellence. If you are passionate about renewable energy, we encourage you to apply for this opportunity, regardless of age, race, gender identity, sexual orientation, disability, religion, or ethnicity.
